

Test of General Educational Development Exams (GED®)

If you want to pursue a rewarding career or continue your education, then getting your high school credential is the most important step you can take. Colleges as well as many employers require one. The HiSet® exam, the new alternative to the GED® test, can help you achieve this important state-issued high school equivalency credential. You must remember that you are not earning “your GED®.” You are earning a “high school equivalency certificate” issued by the state of Illinois.

The process of registration and scheduling of said exams has now changed. Candidates wishing to sit for the “computer-based” exam will now be responsible for this process. Test takers can register by one of the following methods:

- Visiting the test-taker website at https://hiset.ets.org/test_takers
Here, you will create your own account and schedule your exams.
- Calling the ETS Customer Service at 1-855-694-4738

If you should require assistance, please do not hesitate to contact the Carl Sandburg College Testing Center at 309-341-5323.
