

POLICY 3.2: COPYRIGHT OF MATERIALS

The regulations and procedures of the college shall provide the faculty member access to the resources of the college in developing instructional materials. Copyrights of these materials belong to the faculty. The college reserves the right to reproduce these materials for its own internal use without payment to the faculty member. When materials are sold to sources outside the institution, all income will go to the college until the college has recovered its determined developmental cost.

Any materials developed by the faculty member on his/her own time and at his/her own expense are the sole property of the faculty member.
