

## Health Professions

### Radiologic Technology Program – Admission Selection Points Worksheet

The Radiologic Technology Program has limited enrollment and a selection process for admission into the Program. After all admission eligibility requirements for placement into the selection pool have been satisfied and the applicant has applied online for the Radiologic Technology Program, the Radiologic Technology Program uses the following point system for selection into the program. Admission is offered to the top scorers in ranking order in each college district based on the seats available. We place all other applicants on an alternate list in ranking order. If students have the exact total point count, we will rank according to the date/time the Radiologic Technology application was submitted.

**Applicant Name:** \_\_\_\_\_

**Sandburg Student ID:** \_\_\_\_\_

**Date:** \_\_\_\_\_

### **INSTRUCTIONS/NOTES FOR EACH SECTION**

- A. Points based on your valid ACT, SAT, or TEAS score. A TEAS exam must be taken if an SAT or ACT score is below 960 or 21. **Note: TEAS scores are valid for 2 years. SAT and ACT scores are valid for 5 years.**
- B. The point value awarded will correspond to your highest grade in the specified course. MAT 109/110, MDT 100, or BIO 211/212 are Carl Sandburg College course numbers. For detailed course descriptions, please refer to the course catalog at Carl Sandburg College. Based on previous requirements, students on the BIO.205 pathway can only apply to the program in the 2026 academic year. **\*All 200-level science courses must be completed within seven (7) years before the application cycle. Courses taken more than seven (7) years ago will not be accepted.**
- C. Points are given based on the completion and return of the technologist interview questionnaire form. This is not a requirement and is only used for additional point calculations. **\*The technologist interviewed must be currently working in the field. The technologist questionnaire must be returned via email by the technologist's employer to receive points.** Students who have taken a year of high school chemistry, physics, or a more advanced option with a "C" or better and who submit an official transcript will be awarded additional points.
- D. This is where the points earned in sections A-C are totaled.

***A minimum of 10 points is required for admission.***

- Students must have evidence of satisfactory academic progress to be eligible for financial aid consideration for the program (if a student is suspended from Carl Sandburg, they are not eligible).
