

Carl Sandburg College's Dental Hygiene Program's Admission Selection Points Worksheet

The Dental Hygiene Program has limited enrollment and a selection process for admission. After all admission eligibility requirements for placement into the selection pool have been satisfied and the applicant has applied online for the Dental Hygiene Program, the program uses the following point system for selection. The selection is ranked in order based on the available cooperative agreement seats. We place all other eligible applicants on an alternate list in ranking order. If students have the exact total point count, we will rank them according to the date/time the Dental Hygiene application was submitted.

Applicant Name: _____ Sandburg Student ID: _____ Date: _____
