PURPOSE: According to federal laws, a family's 2019 income is used to assess financial need for the 2021-2022 school year. If a family's current calendar year income is lower due to special circumstances, a financial aid administrator may be able to use 2020 or 2021 income to assess financial need. Please complete this form to assist you in reporting changes in the financial circumstances of you and/or your family that have occurred after you applied for financial aid and that will in some way severely limit the ability of you and/or your parents to contribute toward your 2021-2022 college costs.

1. Write a brief summary of your special circumstances.

2. Report total income you have actually received in 2020 and all income you have received from January 1, 2021 through the day you complete this form. Then estimate all income you expect to receive through December 31, 2021. **YOU MUST ATTACH DOCUMENTATION OF ALL INCOME.** Documentation could include 2020 Federal Income Tax Return, W-2 Forms, recent pay stubs with year-to-date earnings, a letter from an employer stating your total earnings with an estimate of future income, etc.
