

Cooperative Agreements at Illinois Participating Colleges

CAREER Consortium

Carl Sandburg College participates in the Comprehensive Agreement Regarding the Expansion of Educational Resources, which is a voluntary agreement that has been signed by all 39 community college districts in Illinois (as of March 2017). Under the terms of the agreement, students may take advantage of career and technical education (CTE) programs offered at any other Illinois community college if the program is not offered in their home district. The students benefit by paying the resident tuition and fee rates, despite living outside the community college district. The table below represents contact information for the resident community college for the incoming student.

INSTRUCTIONS TO STUDENT:

Contact your home community college district and request the paperwork for the Career Consortium. The information below identifies where to go at your home college for necessary forms.

It is the student's responsibility to renew this paperwork each academic year or semester, whichever is determined by their home district.

While this does not change the student's residency status, the Out of District portion of the charges are waived with a financial aid credit. **Tuition will be billed in two-line items 1. In-district tuition and 2. Out of district portion. A financial aid award equal to the out of district portion will be used to offset the out of district share. (TCOOP, TSRC)*

These agreements offer the ability to pay in-district tuition; they do not impact enrollment opportunities for selective admissions programs.

Name of Home District	Paperwork Needed	Office to contact at home school	Programs Included
Black Hawk College	Yes	Instructional Services	Only programs not offered there
City Colleges of Chicago	Yes	Strategy & Academic Governance	Only programs not offered there
College of Dupage	Yes	Student Registration Services	Only programs not offered there
